PROFESSIONAL PERFORMANCE PRODUCTS

Octi-Plus™

***EP
SERIES**
EXTRA PERFORMANCE

- Fully Formulated, Synthetic Gas Additive
- Newly Patented Mannich Technology
- Proprietary Carrier Fluid
- PFI (Port Fuel Injection) Keep Clean and Clean-Up
- Excellent IVD (Intake Valve Deposit) Performance with Minimal CCD (Combustion Chamber Deposits)
- Corrosion Protection
- Totally Disperses Water
- EPA and CARB Approved

Easy To Use

- FOR FUEL SYSTEMS: Pour entire bottle into gas tank before adding fuel to ensure thorough mixing. 12 oz. treats up to 30 gal. (1 oz. to 2.5 gal.). Run engine briefly to cycle product through the system. NOTE: Not for use in Diesel Fuel.
- FOR STORAGE TANKS: For best results, use each time you add fuel to the tank, adding to tank prior to unloading fuel. The fuel delivery process will ensure that complete and proper mixing takes place. NOTE: Bulk sizes use a different treatment ratio (approximately 1 oz. to 12 gal.).
- Use 1 gal. for each 1500 gal. of fuel (1:1500 ratio). First time users can use 1 gal. for each 750 gal. to speed the cleaning process. Octi-Plus will disperse (eliminate) 75% of its own volume of water.

Packaging

Container	Treats	Qty.	Part No.
12 oz.	30 US Gal	24/Case	8056
1 Gal.	1,500 US Gal.	4/Case	8051
5 Gal.	7,500 US Gal.	1	8052
55 Gal.	82,500 US Gal.	1	8053

Larger bulk sizes available, please contact us for pricing.

HMIS HAZARD RATING

0-Minimal	A-Goggles	HEALTH	2
1-Slight	B-Goggles, Gloves	FLAMMABILITY	2
2-Moderate	C-Goggles, Gloves,	REACTIVITY	0
3-Serious	Protective Wear	PERSONAL PROTECTION	B
4-Severe			

Octi-Plus™ Multi-Functional Gas Additive For All Fuels, Including Ethanol Blended Fuels

The recent introduction of gasoline containing Ethanol (Gasohol) to reduce emissions and increase octane has come with its own set of challenges for cars not specifically designed to run on alcohol blended fuels. Especially in blends above 10%, vehicles are likely to experience problems such as delamination (chemical breakdown) of rubber, plastic and synthetic components including hoses, fuel lines, "o"rings, plastic fuel pumps, plastic fuel tanks, fiberglass fuel tanks, epoxy coated fuel tanks or fuel tanks with rubberized or plasticized liners, as well as, injection and system components made of aluminum, copper, brass or bronze.

Vehicles stored with gasoline containing Ethanol in the fuel tank are more likely to have problems with corrosion, deterioration and breakdown. In marine, RV's, off-road, motorcycles, snowmobiles and other vehicles or equipment where fuel is stored for extended periods, gasoline containing ethanol has been found to damage fuel system components and fuel tanks.

Because Ethanol is more hygroscopic (holds more water) than regular gasoline, vehicles can experience more component corrosion, and gum, varnish, carbon deposit formation and other problems caused by fuel degradation.

Regular Use of Octi-Plus Provides the Following Benefits

- No harm formula provides excellent cleaning for carburetors, port fuel injectors, direct injection fuel systems, intake valves and combustion chamber deposits.
- Octi-Plus is considered an "A" Rated Corrosion Inhibitor to Reduce Engine and Storage Tank Corrosion. Also, inhibits growth of bacteria and fungi in fuel.
- Dramatically Slows Sludge Formation in Engine Oil.
- Octi-Plus is much more effective in solving water problems in fuel than traditional methanol or isopropyl "dry gases". Neither methanol or isopropyl dry gas allow water to be burned in the combustion process. Methanol dry gas just keeps the water from freezing, while Isopropyl dry gas uses emulsion technology to trap water. But only Octi-Plus completely eliminates water through dispersion technology. Octi-Plus will disperse (eliminate) 75% of its own volume of water.
- Improves Starting, Drivability, and Performance of all Gasoline Engines.

For more information please consult the Material Safety Data Sheet for this product. All used and unused product and its containers should be disposed of in accordance with all local, state, and federal regulations. Keep This Product Out Of Reach of Children.
