

Aqua Sudz™ Professional Car Soap

DESCRIPTION

A biodegradable liquid car soap formulated especially for the professional. Two ounces (or 2 capfuls) of Aqua Sudz™ concentrate will provide mountains of suds which cuts through and loosens dirt and grease, yet is gentle enough that it won't remove the vehicle's protective wax finish. Pleasant to use because it is gentle to skin. Special sheeting action guarantees rinsing is complete, leaving behind a streak proof finish. May be used in automatic car wash applications. Recommended dilution ratio for best economy would be 1/4 to 1/2 ounce per gallon.

USES

- Cars
- Truck & Bus Fleets
- Boats
- Aluminum Siding

DIRECTIONS

1. Vehicle surface should be cool and out of sun.
2. Pour two ounces of Aqua Sudz™ into a clean empty bucket.
3. Direct a strong stream of water at bottom of bucket to activate suds (use approximately 3 gallons of water).
4. Starting at the top, use a sponge, wash mitt or soft cloth to wash vehicle with suds one section at a time.
5. Hose off each section thoroughly before proceeding. Never let soap dry on vehicle.
6. Wipe dry with toweling or chamois.
7. By directing a strong stream of water in your pail when replacing water, you can reactivate the suds over and over again. In this way, you should be able to wash several vehicles with the original 2 ounces of car wash you started with.

STORAGE

Protect from freezing. Do not store at temperatures above 120°F (50° C).

SPECIFICATIONS

HEALTH	: 1	FLASH POINT	: Does Not Flash
FLAMMABILITY	: 0	EVAPORATIONRATE (Butyl Acetate=1)	: N/A
REACTIVITY	: 0	COLOR	: Deep Red
PERSONAL PROTECTION	: A	ODOR	: Characteristic Odor
		SOLUBILITY IN WATER	: Soluble

PACKAGING

- # 20071 - Gallons
- 4 Per Case**
- # 20075
- 5 Gallon Pail**
- # 200715
- 15 Gallon Cube**
- # 200755
- 55 Gallon Drum**
