SUPER SHEEN™ Silicone Conditioning Coating

V.O.C. Formula Available

DESCRIPTION

Super Sheen™ will dress up any clean black tire by just spraying the tire completely and allowing it to dry. Coating lasts longer because it contains more conditioning agents than other less expensive products. No buffing or wiping necessary. Super Sheen™ is also recommended as a conditioning coating on all leather and man made automobile interiors. This quality formula will guarantee long lasting satisfaction. Don't forget to also use Super Sheen™ as a conditioning coating on leather and man made articles wherever they are found.

USES

- Interiors • Exteriors • Tires • Leather/Man Made Automobile Interiors and More

DIRECTIONS

Make sure surface to be treated is clean and dry. **TIRES:** 1. Apply from sprayer bottle directly on tires. No need for excessive coverage, however, make certain coverage is complete, let dry. **MAN MADE AND LEATHER SURFACES:** 1. Spray onto surface to be coated and conditioned. 2. Let set 5-10 minutes before buffing to a rich shine. May also be applied by spraying onto soft clean cloth first. **IMPORTANT:** Keep off floors and other surfaces where slipperiness could be a problem.

STORAGE
