STRIPE IT!™
Athletic Field Striping Paint

North American V.O.C. Compliant

DESCRIPTION

Stripe It!™ highly pigmented paint quickly and easily lays down bright, durable stripes in just one pass. Lines up to 5" can be made on turf, grass, dirt and other athletic field surfaces, or for short term striping. Use with any aerosol field marking machine. Stripe It!™ is an environmentally conscientious formula that meets CARB and OTC specs, is V.O.C. Compliant and free of lead hazards.

USES

- Athletic Fields • Golf Courses • Football Fields • Soccer Fields • Baseball Fields

DIRECTIONS

1. For best results, use product when can is between 70°F and 90°F (21°C and 32°C).
2. Shake can well for at least one minute before using. 3. Using the Turf Machine, turn can upside down into can holder. MAKE SURE THAT SPRAYHEAD FITS PROPERLY INTO HOLE. Long side of spray head must be parallel to the axle. A line approximately THREE INCHES WIDE will be applied when can is in the lowest position and approximately FIVE INCHES WIDE will be applied when can is in the highest position. Intermediate widths will result when can is positioned between highest and lowest points.
4. Squeeze trigger to activate spray. To avoid any possible "build-up" of paint when starting, it's suggested that machine or wand be in motion and trigger activated when passing over the starting point.
5. Should spray pattern become restricted after using, remove spray head from can and clean orifice in spray head. Can must be pulled straight out of the machine to avoid accidental activation.
6. After use, hold can upright pointed away from self, and press spray head briefly to clear it.

STORAGE

Do not store in temperatures above 120°F (50°C). Do not puncture, incinerate or burn can. Keep away from heat, sparks or open flame.

SPECIFICATIONS

- FLASH POINT : Propellant; 0°F
- EVAPORATION RATE (Ether = 1) : Faster Than
- COLOR : White Liquid
- ODOR : Slight Ammonia Odor
- SOLUBILITY IN WATER : Not Applicable

HMIS HAZARD RATING			
0-Least	A-Goggles	HEALTH	2
1-Slight	B-Goggles, Gloves	FLAMMABILITY	4
2-Moderate	C-Goggles, Gloves,	REACTIVITY	0
