TRANS VITAL™ Automatic Transmission Conditioner

DESCRIPTION

Revitalize your transmission fluid with Trans Vital's™ concentrated blend of antioxidants and dispersants. Special conditioners keep seals soft and pliable. Restores ATF additive package to its required level. Highly friction modified formula keeps transmission shifting properly, and valve body free from deposit build up that hampers fluid flow. For proper preventative maintenance, add Trans Vital™ to every new transmission, and as a top off treatment to keep your vehicle shifting smoothly. Critical for vehicles under high stress – high temperature conditions (pulling a trailer, stop and go driving or snow plowing). Larger bottle provides the optimum amount of additives to properly rejuvenate old fluid trapped in the torque converter at fluid changes.

COMPATIBLE WITH ALL FLUID TYPES INCLUDING DEXTRON AND WORLD STANDARD.

USES

- Prolongs Transmission Life
- Protects Against Oxidation and Thermal Breakdown

DIRECTIONS

1. Top Off: Add to ATF anytime fluid level permits. Do not overfill. 2. High Temperature-High Load: Add to ATF at 10,000 miles or before. Do not overfill. 3. Add at every fluid change. Compatible with all automatic transmission fluids. Properly dispose of used ATF at an EPA-approved disposal or recycling site.

STORAGE

No special handling procedures. Store at room temperature.

PACKAGING

8006 - 11 oz. Bottle
 24 Per Case

WW 12 K Kit
 Trans Vital, Trans Kleen

SPECIFICATIONS

FLASH POINT : Product; > 200° F
 EVAPORATION RATE : < 1
 (Butyl Acetate = 1)
 COLOR : Amber
 ODOR : Petroleum Odor
 SOLUBILITY IN WATER : Insoluble

HMIS HAZARD RATING

0-Least	A-Goggles	HEALTH	2
1-Slight	B-Goggles, Gloves	FLAMMABILITY	1
2-Moderate	C-Goggles, Gloves,	REACTIVITY	0
3-High	Protective Wear	PERSONAL PROTECTION	B
4-Extreme			

FIRST AID MEASURES

EYE CONTACT: If symptoms develop, move individual away from exposure and into fresh air. Flush eyelids with water while holding eyelids apart. If symptoms persist or there is any visual difficulty, get medical attention. **SKIN CONTACT:** Dermal: Wash with soap and then flush with water until all chemical is removed. Remove contained clothing promptly and wash before reuse. If irritation persists get medical attention. **INHALATION:** Remove to fresh air. If breathing has stopped, give artificial respiration, provided qualified individual is available. If breathing is difficult, give oxygen, provided a qualified operator is available. Get prompt medical attention. **INGESTION:** If conscious, Do Not induce vomiting. This material is an aspiration hazard. Drink large amounts of water. Get medical attention. If vomiting occurs, give additional water. If drowsy or unconscious, place on left side with head down. Take immediately to hospital. Do Not attempt to induce vomiting or give anything by mouth to an unconscious person. If possible, do not leave individual unattended. ChemTrec (USA) 800-424 9300.
