## POW'R FLUSH™ Power Steering Rack & Pinion Cleaner

### DESCRIPTION

This unique formula is designed specifically to be used in conjunction with a power steering flush machine. When used as directed, Pow'r Flush™ cleans and captures contaminants from the system first and then allows them to be flushed out during the professional flush service. This power steering service will increase component life and help prevent premature wear of internal steering components.

### USES

- Pow'r Flush™ is a professional service recommended to be used as part of a regular maintenance program, or when a customer complains of steering problems.

### DIRECTIONS

1. Drain 12 oz. of power steering fluid from the pump reserve. 2. Add bottle of Pow'r Flush™ to pump reserve. 3. Run vehicle for 10 minutes. For better cleaning, turn the wheel side to side to help work the product completely into the system. 4. Complete the service by exchanging the used fluid with new manufacturer's recommended fluid using the power steering flush machine. Well•Worth also offers a specially packaged Universal Power Steering Fluid (part # 8016) that comes packaged with the exact amount of fluid needed to be replaced during a flush service. This fluid exceeds most OEM specs and comes packaged with the Pow'r Flush™ as a complete service kit.

### STORAGE

Do not store in temperatures above 120°F (50°C). Keep away from heat, sparks or open flame. Keep from freezing.

### PACKAGING

# 8014 - 12 oz. Bottle  
 12 Per Case  
 WW 27 K Kit  
 Pow'r Flush,  
 Power Steering Fluid

### SPECIFICATIONS

FLASH POINT : Product; 106° F  
 EVAPORATION RATE : Faster Than 1  
 (Butyl Acetate = 1)  
 COLOR : Red  
 ODOR : Alcohol Odor  
 SOLUBILITY IN WATER : Negligible

### HMIS HAZARD RATING

0-Least	A-Goggles	HEALTH	2
1-Slight	B-Goggles, Gloves	FLAMMABILITY	2
2-Moderate	C-Goggles, Gloves, Protective Wear	REACTIVITY	0
3-High		PERSONAL PROTECTION	B
4-Extreme
