**eFLUSH™ Gas & Diesel Engine Oil Cleaner**

**DESCRIPTION**

Improve your engine’s performance in just one treatment with eFlush. Concentrated formula safely and quickly flushes sludge and varnish deposits and other contaminants from oil passages, screens, hydraulic lifters, rocker arms and other critical engine parts. Works in gasoline, diesel and LPG engines. Harmful crankcase deposits are absorbed and flushed out of the engine when old oil is drained. Well•Worth’s eFlush™ maximizes lubrication, reduces hydrocarbons and nitrogen oxide emissions. May be used alone, but for best results, recommended to be used as part of a complete treatment with an engine flush machine.

**USES**

- Eliminates crankcase deposits • Works in gasoline, diesel and LPG engines

**DIRECTIONS**

Add eFlush to engine oil. Start engine. Run at fast idle for 10 minutes. Stop engine. Drain oil. After cleaning install a new filter and fresh oil. For added protection, add a bottle of EOA oil supplement. This product is also formulated to work safely and effectively with engine flush equipment. Be sure to refer to your particular flush machine instructions for proper use.

**STORAGE**

Keep tightly closed. Keep away from heat or flame. Some types of plastic may soften or permeate vapors.

**SPECIFICATIONS**

FLASH POINT : Product; 9°C, 31°F  
 EVAPORATION RATE : 1.1  
 (Water = 1)  
 COLOR : Transparent, Liquid  
 ODOR : Strong Odor  
 SOLUBILITY IN WATER : Insoluble

HMIS HAZARD RATING			
0-Least	A-Goggles	HEALTH	2
1-Slight	B-Goggles, Gloves	FLAMMABILITY	2
2-Moderate	C-Goggles, Gloves,	REACTIVITY	2
3-High	Protective Wear	PERSONAL PROTECTION	B
4-Extreme			

**FIRST AID MEASURES**

EYE CONTACT: Flush with water for a few minutes, thoroughly rinsing under eyelids. SKIN CONTACT: Wash with water immediately. Wash contaminated clothing before reuse. Get medical attention for any serious exposure to the product. INHALATION: Remove to fresh air. If not breathing give artificial respiration, preferably by mouth to mouth. INGESTION: Do not induce vomiting. If conscious give 2 glasses of water. If vomiting occurs spontaneously elevate hips to avoid aspiration to lungs. ChemTrec (USA) 800-424 9300.
