## THUNDERBOLT™ Penetrating Oil

### DESCRIPTION

What are the secrets to Thunderbolt's amazing penetrating powers? First, THUNDERBOLT™ is ION-ACTIVATED and has a super attraction to metal. Like a magnet, THUNDERBOLT™ is forcefully drawn beyond heavy rust and corrosion to blast free frozen parts quickly and easily. Second, THUNDERBOLT™ FOAMS ON, TO STAY ON. Won't run off, but hangs around to work overtime on your toughest jobs. Third, premium formula keeps working even when exposed to high temperatures. Last but not least, a special lubricant protects and lubricates metal surfaces even under the most demanding situations.

### USES

- Releases frozen or oxidized fasteners to allow easy removal.
- Excellent all around penetrating oil.

### DIRECTIONS

1. SHAKE CAN BEFORE USING.
2. Spray Thunderbolt™ on frozen, rusted or oxidized part.
3. In extremely tough situations, repeat the above procedure.
4. For greater accuracy, or when working in tight areas, use the attached extension tube.
