

Description:

FREEZE FLOW™ is a cold weather treatment designed to prevent gelling, waxing, and fuel line freeze-up. Other helpful benefits include water elimination, fuel economy improvement, fuel stabilization, and reduced emissions. FREEZE FLOW™ dissolves gum, varnish, and carbon deposits that distort fuel injector spray patterns and damage delicate injector and pump components. FREEZE FLOW™ uses a combination of an organic solvent and organic polymer that significantly depresses the PP (Pour Point) and lowers the CFPP (Cold Filter Plug Point) by inhibiting the formation of wax crystals within the fuel.

Clean Diesel Additive

This diesel fuel additive complies with the federal low sulfur content requirements for use in diesel motor vehicles (on-road) and non-road engines.

FREEZE FLOW™ Hi-Tech Cold Weather Diesel Fuel Treatment and Conditioner

Directions:

For best results, use every time you fuel. Adding product to fuel tank prior to fueling will speed the treatment process.

Use 32 oz. for each 250 gallons of fuel (1:1000 treatment ratio). When operating below zero, use 32 oz. for each 125 gallons (1:500 treatment ratio) to provide additional cold weather protection

Uses:

- Lower Cold Filter Plug Point
- Cleans Fuel Injectors and Pumps
- Eliminate Water
- Cetane Improver
- Reduce Oxidation to Stabilize Fuel
- Improve Fuel Atomization

Packaging:

- #8021 - 32 oz. Bottle.....12 per case
- #8022 - 1 Gallon.....4 per case
- #8023 - 5 Gallon
- #8024 - 55 Gallon
- #8024t - 275 Gallon

For complete product specifications, review the product SDS at wellworthproducts.com.

Storage:

Store at room temperature. Do not store near potential sources of ignition. Store in well ventilated area.

First Aid Measures:

- EYE CONTACT: Flush with large amounts of water for 15 minutes.
- SKIN CONTACT: Wash with soap and water.
- INHALATION: Remove person to fresh air.
- INGESTION: Do not induce vomiting. Get medical attention.
