

# BATTERY TERMINAL PROTECTORS

Battery Terminal Protectors fight corrosion and prolong battery life. Pads are saturated with a battery corrosion preventive oil that does not dry or evaporate. Increases cranking ability and reduces voltage leakage. Works on both top and side battery terminal applications.

**Directions:**

1. Loosen and remove cables from battery posts.
2. Place one pad over each post and push pad all the way down over post until it seats flat on battery.
- 3 Reattach cables and tighten.

**Product Number and Packaging:**  
#600..... 2 pads per sleeve

For complete product specifications, review the product SDS at [wellworthproducts.com](http://wellworthproducts.com).

**Storage:**

Avoid contact with strong oxidizing agents. Extended Exposure to high temperatures may cause decomposition.

**First Aid Measures:**

- **EYE CONTACT:** For direct contact, flush the affected eye(s) with gentle stream of clean water for at least 15 minutes. If irritation persists; seek medical attention.
  - **SKIN CONTACT:** Do not use gasolines, thinners, or solvents to remove products from skin. Remove contaminated clothing. Cleanse affected area(s) thoroughly by washing with mild soap and water and, if necessary, a waterless skin cleaner. If irritation or redness develops and persists, seek medical attention.
  - **INHALATION:** If irritation of nose or throat develops, move away from source of exposure and into fresh air.
  - **INGESTION:** If swallowed do not induce vomiting. Seek medical attention. The product contains mineral oil, which if aspirated into the lungs through vomiting, may result in chemical pneumonia.
