

OPTIMA GLAZE 1 STEP CLEANER/WAX

OPTIMA GLAZE™ is a nonabrasive 1 step cleaner/wax. Cleans, polishes, and protects basecoat and clear coat paint finishes.

Directions:

For best results painted surfaces should be cool to the touch before applying.

HIGH SPEED BUFFER:

1. Shake container well before using.
2. Work one small (2' x 2') section at a time.
3. Apply small amount of Optima Glaze directly to the painted surface.
4. Use a foam or wool pad and even pressure buff until dry.

ORBITAL BUFFER OR BY HAND:

1. Apply Optima Glaze using an applicator pad.
2. Allow to dry.
3. Remove with orbital buffer or soft cloth.

Product Number and Packaging:

#205532 - 32 oz.

For complete product specifications, review the product SDS at wellworthproducts.com.

Storage: Do not store below 32 degrees F. Do not store in direct sunlight. Keep away from heat, open flames or other sources of ignition. Keep away from children. Keep containers tightly closed.

First Aid Measures:

EYE CONTACT: Flush immediately with large amounts of clean water for a minimum of 15 minutes, lifting upper and lower lids occasionally. Do not rub eyes. If any irritation persists, seek medical attention.

SKIN CONTACT: Rinse area with soap and water.

INHALATION: If breathing is difficult or irritating, move person to fresh air immediately.

INGESTION: Do not induce vomiting. If the person is conscious, give two glasses of water to dilute the ingested material. Follow up with several glasses of fruit juice or very dilute vinegar or carbonated soda to neutralize the alkaline material. Small amounts that may have accidentally entered the mouth should be rinsed out thoroughly with water. Seek medical attention immediately.
