

Description:

This unique formula is designed specifically to be used in conjunction with a power steering flush machine. When used as directed, POW'R FLUSH™ cleans and captures contaminants from the system and allows them to be flushed out during the professional flush service. This power steering service will increase component life and help prevent premature wear of internal steering components. Also comes packaged in our WW kits to provide additional cleaning and service options.

Extra Performance

POW'R FLUSH™ Power Steering Rack and Pinion Cleaner

Directions:

1. Drain 12 oz. of power steering fluid from the pump reserve.
2. Add one bottle of POW'R FLUSH™ to pump reserve.
3. Run vehicle for 10 minutes. For better cleaning, turn the wheel side to side to help work the product completely into the system.
4. Complete the service by exchanging the used fluid with new manufacturer's recommended fluid using the power steering flush machine.

NOTE: Well•Worth also offers a specially packaged Universal Power Steering Fluid (part # 8016) that contains the exact amount of fluid needed to be replaced during a flush service. Our fluid exceeds most OEM specs and comes packaged with the POW'R FLUSH™ as a complete service kit.:

Uses:

- POW'R FLUSH™ is a professional service recommended to be used as part of a regular maintenance program, or when a customer complains of steering problems.

Packaging:

#8014 - 12 oz. Bottle.....24 per case
WW 27 K Kit - POW'R FLUSH™, POWER STEERING FLUID (#8016 - 64 oz.)

For complete product specifications, review the product SDS at wellworthproducts.com.

Storage:

Do not store above 120°F (50°C). Keep away from heat, sparks and open flame. Keep from freezing.

First Aid Measures:

- EYE CONTACT: Flush eyes with fresh water. If irritation continues, get medical attention.
- SKIN CONTACT: Immediately wash skin with soap and fresh water. If irritation continues, get medical attention. Wash clothing separately before reuse.
- INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention.
- INGESTION: Get immediate medical attention. DO NOT induce vomiting. Give victim water or milk.
