

AQUA SUDZ™ BIODEGRADABLE CAR WASH

A biodegradable liquid car soap formulated especially for the professional. Two ounces (or 2 capfuls) of AQUA SUDZ™ concentrate will provide mountains of suds which cut through and loosen dirt and grease, yet are gentle enough that they won't remove the vehicle's protective wax finish. Pleasant to use because it is gentle to skin. Special sheeting action guarantees rinsing is complete, leaving behind a streak-proof finish.

Directions:

1. Vehicle surface should be cool and out of sun.
2. Pour two ounces of AQUA SUDZ™ into a clean empty bucket.
3. Direct a strong stream of water at bottom of bucket to activate suds (use approximately 3 gallons of water).
4. Starting at the top, use a sponge, wash mitt or soft cloth to wash vehicle with suds one section at a time.
5. Hose off each section thoroughly before proceeding. Never let soap dry on the vehicle.
6. Wipe dry with toweling or chamois.
7. By directing a strong stream of water in your pail when replacing water, you can reactivate the suds over and over again. In this way, you should be able to wash several vehicles with the original 2 ounces of car wash you started with.

Product Number and Packaging:

- #20071 - 1 gallon
#20075C - 5 gallon
#200755 - 55 gallon

For complete product specifications, review the product SDS at wellworthproducts.com.

Storage:

Do not allow product to freeze. Keep container closed when not in use. Do not store at temperatures above 120°F (50°C).

First Aid Measures:

- EYE CONTACT: Flush eyes with cool water for at least 15 minutes. If irritation persists, get medical attention.
- SKIN CONTACT: Wash with soap and water. Remove clothing, wash before use. If irritation persists, get medical attention.
- INHALATION: Remove to fresh air and ensure breathing.
- INGESTION: Drink large amounts of water or milk. Get prompt medical attention.
