

# LASER

## SPACE AGE PENETRATING OIL

LASER™ incorporates a laser-like pinpoint spray nozzle that blasts a blend of penetrating oils to bust loose rusted nuts and bolts. LASER's unique climbing action penetrates the tightest areas to attach rust and corrosion. LASER is also very effective at displacing moisture on motors and equipment. LASER leaves behind a protective film that lubricates and helps prevent future rust and corrosion.

### Directions:

1. SHAKE CAN WELL BEFORE USING.
2. Spray LASER™ on frozen, rusted or corroded part. Allow a few minutes for the product to do its job. Tapping the part will help accelerate the penetrating action. In extremely tough situations, a second application may be needed.
3. TO DISPLACE MOISTURE: Make certain the ignition is off and cool before spraying engines or equipment. Allow a couple of minutes for "drying" action to take place before turning ignition back on.

### Product Number and Packaging:

#5011 – Net wt. 11.5 oz Aer.....12 per case

For complete product specifications, review the product SDS at [wellworthproducts.com](http://wellworthproducts.com).

### Storage:

Do not store in temperatures above 120°F (50°C). Do not puncture, incinerate or burn. Do not place near sources of heat. Keep out of reach of children.

### First Aid Measures:

- EYE CONTACT: Wash eyes with fresh water. If irritation continues, get medical attention.
- SKIN CONTACT: Wash skin with fresh water. If irritation continues, get medical attention.
- INHALATION: Remove to fresh air. Give oxygen. Get medical attention.
- INGESTION: Do not induce vomiting-gastric lavage. Get medical attention.
