

Description:

Revitalize your transmission fluid with TRANS VITAL's concentrated blend of antioxidants and dispersants. Special conditioners keep seals soft and pliable. Restores ATF additive package to its required level. Highly friction modified formula keeps transmission shifting properly, and valve body free from deposit build up that hampers fluid flow. For proper preventative maintenance, add TRANS VITAL™ to every new transmission, and as a top off treatment to keep your vehicle shifting smoothly. Critical for vehicles under high stress – high temperature conditions (pulling trailers, stop and go driving, snow plowing).
