

# ALUMINATE™

## CONCENTRATED ALUMINUM CLEANER

ALUMINATE™ is a concentrated acid-based wheel cleaner for use on wire, chrome, mag and aluminum wheels. Removes road tar, road film, rust and brake dust. ALUMINATE™ is concentrated and can be used straight undiluted on wire wheels, or diluted up to 1:10 with water for chrome, mag and aluminum wheels.

### Directions:

**WARNING:** ALUMINATE™ contains strong acids. Before using, **READ ENTIRE LABEL AND MSDS SHEET** for complete precautions for safe handling and use. Mix ALUMINATE™ as follows. Wire Wheels: use straight, do not dilute. Chrome, Mag and Aluminum Wheels: 1 part ALUMINATE™ with up to 10 parts of water.

1. Wet entire wheel and surrounding area with water. Do only one wheel at a time. Test a spot on reverse side of wheel before using.
2. Spray directly on wheel. Allow to dwell for 1 minute only.
3. Rinse wheel and surrounding area with water.

**NOTE:** Use only on wire, chrome, mag, or aluminum wheel. Do not use on painted wheels.

### Product Number and Packaging:

20471 – 1 gallon  
20745C - 5 gallon  
207432 - 1 quart

For complete product specifications, review the product SDS at [wellworthproducts.com](http://wellworthproducts.com).

### Storage:

Avoid sparks and open flames. Keep contained closed when not in use. Do not allow product to freeze.

### First Aid Measures:

- **EYE CONTACT:** Flush eyes with cool water for at least 15 minutes, or flush with a buffered eye solution. Seek medical attention.
- **SKIN CONTACT:** Flush skin with water for 15 minutes. Remove clothing, wash before reuse. Discard contaminated shoes and leather articles. Seek medical attention.
- **INHALATION:** Remove to fresh air and ensure breathing.
- **INGESTION:** Drink large amounts of water or milk. Rinse mouth with water. Seek prompt medical attention.
