

BLACK BEAUTY™

VINYL & PLASTIC COATING

BLACK BEAUTY™ restores plastic and vinyl trim components to like-new condition with a high gloss finish. Side moldings, bumpers, plastic and vinyl surfaces, window and door seals instantly regain their original rich black look. Door and window seals become pliable again and will no longer freeze and stick.

Directions:

Shake can well before using. Prepare surface. Remove dirt, dust, oil and grease. Dry surface. Test spray on an inconspicuous area to check compatibility. Hold can 10" to 12" from surface and spray using a stroking motion. Apply two or more coats rather than one heavy coat. For best results, spray at 70° to 80°F. Polish surface, if desired, using a soft cloth after allowing spray to dry a few minutes. Black Beauty™ may also be applied by spraying product onto a cloth first and then wiping evenly over area to be treated.

Product Number and Packaging:
#2002 – 12 per case
