Directions:

SUMMIT™ is designed to be used in all diesel fuels year around, SUMMIT™ should be added to fuel at a ratio of 16 oz. of SUMMIT™ to 125 gallons of fuel, or 32 oz. of SUMMIT™ to 250 gallons of fuel. For cold weather operation SUMMIT™ provides a high level of anti-gel protection. In extreme cold weather (below 0°F) it is acceptable to use a ratio of 16 oz. to 75 gallons of fuel. To enhance proper mixing, add SUMMIT™ prior to filling fuel tank.

Product Numbers and Packaging:

#8042 – 1 quart (12/CS)

#8043 – 1 gallon (4/CS)

#8044 – 5 gallon pail

#8045 – 55 gallon drum

NOTE: This product is highly concentrated and may thicken if stored below 30°F. If thickening occurs, warm product before blending.

CLEAN DIESEL ADDITIVE: This diesel fuel additive complies with the federal ultra-low sulfur content requirements for use in diesel motor vehicles (on-road) and non-road engines.

DANGER: Combustible liquid. Contains petroleum distillates. Keep away from heat or flame. Harmful or fatal if swallowed. Harmful if inhaled. Causes skin and eye irritation.
