**Directions:**

This product is extremely flammable and may cause flash fires and engine backfires which may result in injury. Do not spray on hot metal surfaces or when engine is hot. Use plastic extension tube to direct spray to exact location. CARBURETOR: With ignition off and engine cool, remove air filter, and spray exterior. After carburetor dries, start engine and spray PREDATOR™ down the carburetor throat to clean inside surfaces. PCV VALVE: Disconnect crank case side of PCV valve and with engine running spray PREDATOR™ into open end of valve. IMPORTANT: If sprayed on painted or plastic surfaces, wipe off immediately.

**Product Number and Packaging:**  
PRODUCT 1007 – 12/CASE

CONTAINS: Acetone, Heptane.

**DANGER:** Extremely flammable aerosol. Pressurized container: may burst if heated. Contains gas under pressure; may explode if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways.

**FIRST AID:** IF INHALED: If inhaled, remove to fresh air. If not breathing, give artificial respiration and obtain immediate medical assistance. If breathing is difficult, give oxygen and get medical attention. Do not give adrenaline, epinephrine or similar drugs following exposure to this product. IF ON SKIN: Wash with plenty of soap and water. If skin irritation persists, get medical advice/attention. Take off contaminated clothing and wash it before reuse. IF SWALLOWED: Immediately call a POISON CENTER doctor, physician. DO NOT induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes.
