Directions:

Make sure the vehicle's A/C system is turned off before beginning procedure. Shake can well. Insert nozzle (or VT008 adapter and hose) into A/C evaporator drain. Spray approximately half of can contents into the drain hose. The foam will encase the evaporator coil and begin cleaning and sanitizing. Allow 10-15 minutes for the Kleen Vent+ foam to liquify and drain back out of the drain hose. Repeat procedure with the remaining contents of the can. After draining for 10 minutes, start the vehicle, turn A/C system on with fan at low speed and run vehicle for an additional 10 minutes to complete the drying process. VT008 adaptor and hose sold separately.

Product Number and Packaging:
#3025 – 12/CASE

COMPOSITIONAL INFORMATION: Contains [CAS#]: Petroleum gases, liquified, sweetened [68476-86-8], Ethylene Glycol Monobutyl Ether [111-76-2], Polyethylene Glycol Nonylphenyl Ether [9016-45-9] Isopropyl Alcohol [67-63-0], Sodium Metasilicate [6834-92-0]

DANGER: Extremely flammable aerosol. Contains gas under pressure; may explode if heated. May cause genetic defects.

PRECAUTIONARY STATEMENT: If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection and face protection. If exposed or concerned: Get medical attention. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place. Store locked up. Dispose of contents and container in accordance with local, regional, national and international regulations.

Read Safety Data Sheet before using.
