

PLEXALL™

PLASTIC & TINTED GLASS CLEANER

Acrylic and plastic surfaces such as plexiglass and tinted window film require a special cleaner. PLEXALL™ contains no ammonia, harsh chemicals or abrasives that could scratch or discolor sensitive surfaces while cleaning. The addition of anti-static and anti-fogging agents keeps the surface sparkling clear by helping to resist dust and fogging.

For use on plastic and glass surfaces including after-market tinted window films, plastic windows and plexiglass.

Directions:

SHAKE CAN WELL BEFORE USING.

For best results make sure surface to be cleaned is out of the sun.

Hold can in an upright position 8-12 inches from surface and spray.

Use only a clean, soft, lint-free or microfiber cloth.

Use one cloth to lift dirt and a second cloth to dry.

Product Number and Packaging:
#1010 – 12/case
