

# ENZYME ALL PURPOSE CONCENTRATED INTERIOR CLEANER

ENZYME ALL PURPOSE™ is a super concentrated, low foam, free rinsing, rapid action cleaner with enzymes for quick interior and exterior cleaning and deodorizing. This product works with Tornador Cleaning Tools, extractors, turbo-type cleaners, and hand application. Enzyme All Purpose features special cleaning surfactants and enzymes that produce a deep penetrating cleaning action to lift dirt. Enzyme All Purpose's alkaline formulation provides outstanding interior cleaning and removes stubborn dirt, grease and grime fast. Eliminates odors caused by dampness, mildew, mold, food, and organic matter.

#### Directions:

Consult SDS for complete safety information before using.

#### FOR EXTRACTOR APPLICATION:

Follow manufacturer's recommendations.

#### FOR TURBO-TYPE MACHINES:

1. Add 2 ounces of ENZYME ALL PURPOSE™ into the tool cup & fill with water.
2. Do not exceed 100 PSI.
3. Follow equipment instructions.

#### FOR HAND APPLICATION:

1. Mix up to 1 to 10 with water.
2. Apply solution to area to be cleaned.
3. Scrub surfaces with upholstery brush.
4. Towel dry.

NOTE: can also be bottle-sprayed to pre-spot tough protein-based stains.

#### Product Number and Packaging:

#214932 – quart (12/CS)

#21491 – gallon (4/CS)

#21495C – 5 gallon cube

Not a hazardous substance or mixture according to United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200)

KEEP OUT OF REACH OF CHILDREN

#### FIRST AID:

**EYE CONTACT:** Rinse eyes cautiously with lukewarm, gently flowing water for 15 minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical attention/advice.

**SKIN CONTACT:** Wipe off with a towel. Wash with soap and water. Get medical attention if irritation persists.

**INHALATION:** Remove source of exposure or move person to fresh air and keep comfortable for breathing. If breathing is difficult, trained personnel should administer emergency oxygen if advised to do so by the POISON CENTER/doctor. If breathing has stopped, trained personnel should begin rescue breathing or, if the heart has stopped, immediately start cardiopulmonary resuscitation (CPR) or automated external defibrillation (AED). If you feel unwell/if concerned: Get medical advice/attention.

**INGESTION:** Rinse mouth. Give two glasses of water. If you feel unwell or if concerned: Get medical attention. Do NOT induce vomiting unless under the advice of doctor or POISON CENTER. Note: Never give anything by mouth to an unconscious or convulsing victim. Keep person warm and quiet.

**STORAGE:** Keep container tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight and incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Containers that have been opened must be carefully resealed to prevent leakage. Store at temperatures under 120°F. KEEP FROM FREEZING.

**DISPOSAL:** Dispose of in accordance with local/regional regulations.
